Re: Fill Removed from Ephemeral Drainage, Georgia Pacific Corp., Hebe Mine, M/015/072, Emery County, Utah

Dear Mr. Harms:

Last February, Susan White and I visited the Hebe Mine and found two places where fill had been put in the drainage. On February 21, 2003, I wrote and asked that you remove this fill. I inspected the site on May 30, 2003, and found that the channel had been reestablished.

I appreciate your cooperation in taking care of this problem. Because some fill remains in the channel, you and the Division should monitor it to make sure the fill does not slough into the drainage and block it again, but I do not anticipate this happening.

Thank you for your cooperation. Please call me at 801-538-5261 if you have questions or concerns about this letter.

Sincerely,

Paul B. Baker
Senior Reclamation Biologist
